

A Funny School Year – 19.06.2018

Children 4 to 11 years old will share with the partners some special moments of their school life (first day of school, welcoming activities at the beginning of the school year, celebration of festivities such as Christmas, Easter, Mother's day, sports days and any other event we usually organize at school).

We can create a page for each school and share photos, videos, drawings, short texts, presentations.

At the end of the school year each school will create a video with the special moments lived and activities done. All the videos will be uploaded on an interactive map of Europe and shared with the partners.

Besides we will create a collaborative book with the photo of each class and a short list of the activities shown in the video.
