

Amazing Animals - 26.02.2018

Children will learn about different animals of their own and partner countries and how to protect endangered species.

English will be the vehicle of communication, making students aware of the importance of this language in order to communicate with students from other countries.

to learn about different animals and nature and how to protect endangered species;

to talk about favourite animals;

to describe fantasy animals;

to find out what kind of animals live in different countries;

to become aware that there are many endangered animals;

to develop four language skills;

to make friends with children from other countries.
